

Superior Booking Platform to Drive Greater Revenues

Powerful Hotel Booking Engine

aRes Travel provides hotel partners with cutting-edge merchandising technology and marketing know-how to keep occupancy strong through even the most distressed dates.

Our partner hotels can yield rates and availability in real time to sell individual and opaque room inventory through:

- Dynamic packages
- Extended stay specials
- aRes Travel hot deals
- Reservation call center exclusives
- Hotel chain-wide agreements
- Single use credit card for net rate payment

Easy-to-Use Hotel Extranet

The aRes Travel Extranet can dynamically bundle hotel stays with services from many other travel categories.

This effortless system allows our hotel partners the ability to distribute inventory through the entire aRes Travel Network of thousands of websites. Use of the aRes Travel Extranet also enables hotel properties to manage inventory, rates, cut off dates and minimum night stays. The platform is compatible with leading channel management tools.

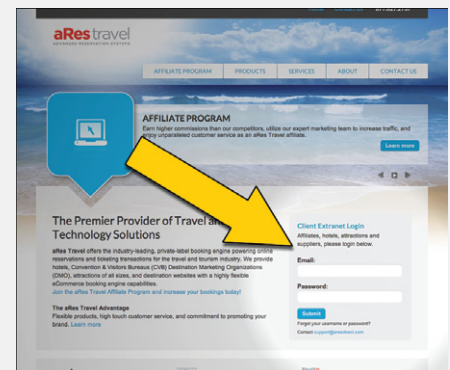

The aRes Travel Deals Wizard

The Deals Wizard program allows hotels to separate themselves from the competition by setting date specific promotions in advance over need periods, while providing a compelling and actionable offer.

These deals are highlighted online and given additional exposure throughout the aRes Travel Network.
