

## The Premier Provider of Travel and Tourism Technology Solutions

aRes Travel's private-label booking engine powers organizations nationwide. Convention & Visitor Bureaus, Destination Marketing Organizations, hotels, attractions, event organizers, entertainment venues and destination websites leverage our highly flexible eCommerce platform capabilities.

**aRes Travel provides our partners the following custom products and services:**

### Private- Label Booking Engine

Integrates seamlessly into your existing website and allows for the creation of customized travel packages. And you share in the revenue!

### High Touch Customer Service

Our highly engaged Account Management team provides constant guidance in online best practices to increase revenue.

### Online Ticketing Technology & Service

Our direct-to-turnstile print@home e-ticketing utilizes embedded travel supplier bar codes to print tickets directly from your website. Our e-vouchers provide consumers the convenience of print@home, and you with fulfillment flexibility.

### Interactive Marketing & Web Design

Providing outstanding online marketing support to promote your travel site. Products and services include online media, Email, SEM, SEO, Social media + web design & development.

### Central Reservation Call Center

US based aRes Travel Central Reservation Call Center agents specialize in providing expert local knowledge of hotels, attractions, and city information. Our agents give the traveler a traditional way to secure travel plans via a toll free phone number.

### Group Housing & Overflow Service

Uniquely qualified to negotiate group housing rates and provide a comprehensive analysis of hotel property contracts and when the official block is sold out.

**aRes Travel is committed to working with all member travel suppliers - regardless of size or ability to provide standard commissions. Contact us today!**
